

Market Parking

For Stall Holders:

Stall holders need to unload their vehicles in Forth Street before 8.45am and move them off-site as soon as possible to avoid causing traffic congestion.

Stall holder vehicles must be parked in either the Franklin street carpark or the Bathurst Street carpark down near the river – as indicated on the map below. The star indicates the location of the market.

Vehicles cannot be parked in the jail carpark or in front of local residences for extended periods of time and must not obstruct general traffic in the village.
